# MULTI-SITE GOVERNANCE FRAMEWORK

Consistency, visibility, and assurance of H&S management across your organisation.

## BEST SUITED TO:

Organisations operating multiple sites that need standardisation, reliable reporting, and leadership oversight across a broad range of health & safety risks.

## INCLUDED:

01 Company-wide compliance and maturity gap analysis

02 Prioritised action plan aligned to business risk

03 Health & safety governance framework (escalation, ownership, decision pathways)

04 KPI and reporting structure suitable for senior leadership

05 Standardised policies, procedures, and site templates

06 Scheduled site audit programme design

07 Training needs analysis across key roles

08 Implementation roadmap with defined milestones

09 Three months of monitoring and remote support

# WHAT THIS DELIVERS:

A structured governance framework delivered through a professional Health & Safety Management System (HSMS), giving leadership clear visibility of what matters, early warning of issues, and confidence in the controls in place — without drowning in data.

## OUTCOMES YOU CAN EXPECT:

Consistent standards and controls across all sites

Clear Board-level visibility of risk and performance

Faster identification and closure of corrective actions

Delivery timeframe:

**6–10 weeks**

Typical investment:

**£10,000 – £30,000**

(dependent on number of sites and risk profile)
