Stage of Your Business

MULTI-SITE GOVERNANCE FRAMEWORK

Consistency, visibility, and assurance of H&S management across your organisation.

BEST SUITED TO:

Organisations operating multiple sites that need standardisation, reliable reporting, and leadership oversight across a broad range of health & safety risks.

INCLUDED:

Company-wide compliance and maturity gap analysis

01

Prioritised action plan aligned to business risk

02

Health & safety governance framework (escalation, ownership, decision pathways)

03

KPI and reporting structure suitable for senior leadership

04

Standardised policies, procedures, and site templates

05

Scheduled site audit programme design

06

Training needs analysis across key roles

07

Implementation roadmap with defined milestones

08

Three months of monitoring and remote support

09

WHAT THIS DELIVERS:

A structured governance framework delivered through a professional Health & Safety Management System (HSMS), giving leadership clear visibility of what matters, early warning of issues, and confidence in the controls in place — without drowning in data.

OUTCOMES YOU CAN EXPECT:

Consistent standards and controls across all sites

Clear Board-level visibility of risk and performance

Faster identification and closure of corrective actions

Delivery timeframe:

6–10 weeks

Typical investment:

£10,000 – £30,000

(dependent on number of sites and risk profile)
