Stage of Your Business

# HEALTH & SAFETY MANAGEMENT SYSTEM

A full reset for high-risk or rapidly scaling organisations.

## BEST SUITED TO:

High-risk environments, complex operations, or organisations where existing systems are outdated, fragmented, or failing to deliver the required level of control. This may follow internal review findings, regulator intervention, or a desire to achieve a new accreditation.

## INCLUDED:

Full health & safety management system redesign

01

Incident investigation and root-cause analysis framework

05

Legal register and compliance matrix

02

Audit readiness support and regulator engagement assistance (if required)

06

Complete register suite  
Risk Assessments, Safe Systems of Work, COSHH, training, policies and more

03

Six months of follow-up monitoring and continuous improvement planning

07

Site-level implementation and training rollout plan

04

# WHAT THIS DELIVERS:

A complete review and bespoke redesign of your Health & Safety Management System — aligned to ISO 45001 principles — with clear governance, embedded processes, and leadership confidence.

## OUTCOMES YOU CAN EXPECT:

A defensible, fully auditable management system

Improved safety culture, performance, and engagement

Continuous improvement built in and monitored through inspections and audits

Delivery timeframe:

**10–16 weeks**

Typical investment:

**From £25,000+**
